**TRADING, MINING, AND MANAGEMENT  
OF FINANCIAL DIGITAL ASSETS.**

LAST UPDATED: 17 AUGUST, 2023

# GREETINGS

Greetings and salutations to you. We trust that the information heretofore presented herein affords you a comprehensive elucidation of our corporate entity, our ethos, our visionary aspirations, and our fundamental convictions. Through unwavering resolve and unyielding perseverance, we have garnered laudable achievements within the crypto sector by virtue of our unwavering commitment to the delivery of superlative service quality.

## WHAT DO WE DO?

- Retain substantial quantities of digital assets, and derive advantages from their yields and returns.
- Engage in the extraction and disclosure of digital assets for the benefit of the pertinent public.

## \$19B

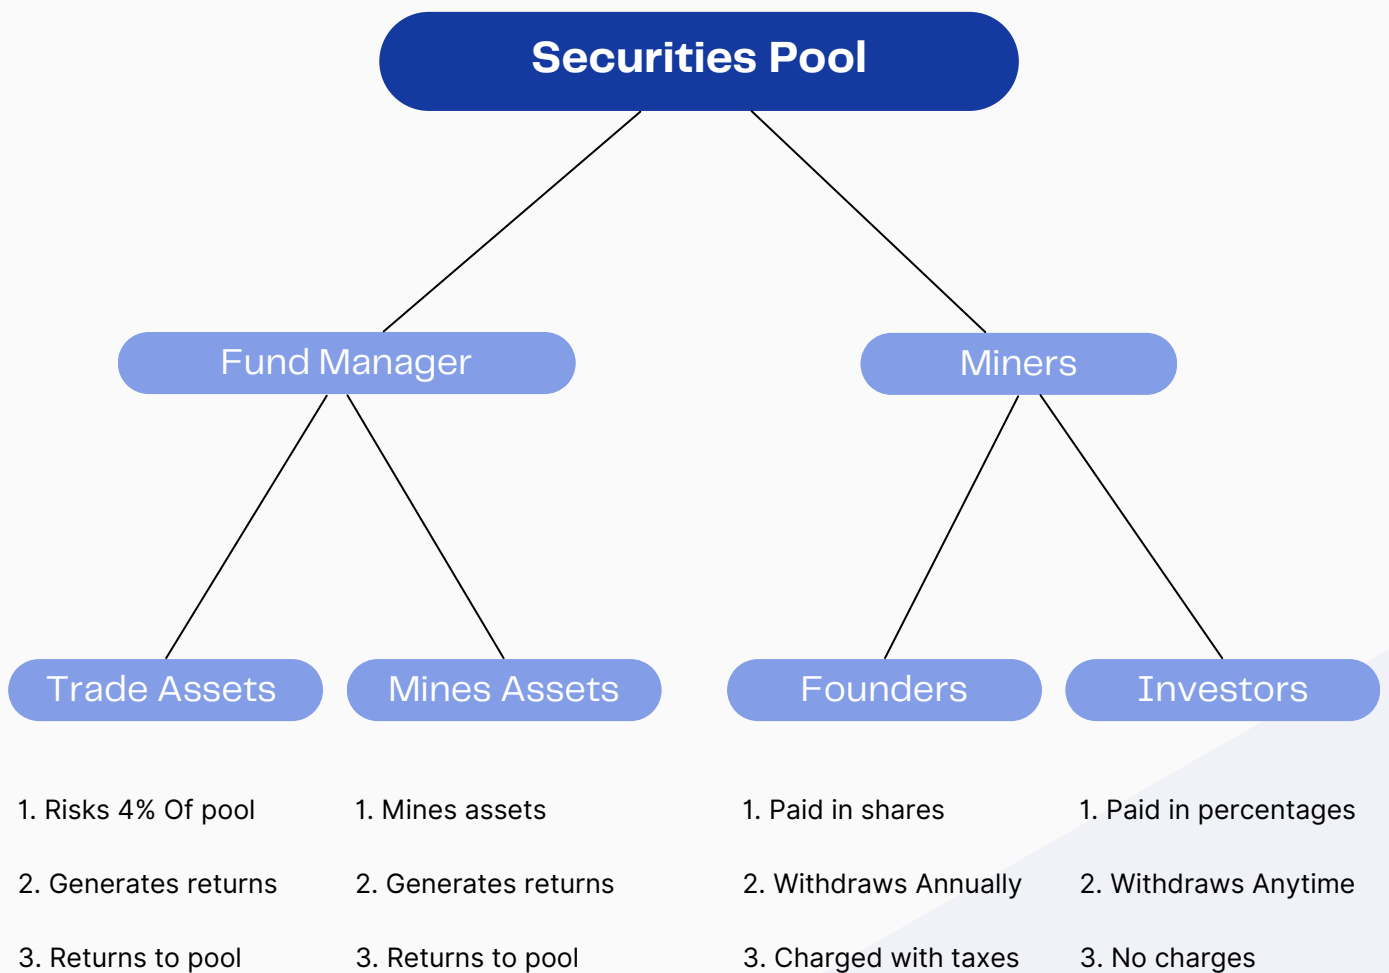

### SECURITES POOL

This aggregation serves to provide diversification and risk management for participating investors, who typically hold proportional ownership interests in the pool, subject to the terms and conditions established by the governing documentation.

# Operations

Our primary activities are inherently anchored to our portfolio of securities.

## Map of Operations and Benefactors

# Future Plans & Milestones

Intended trajectories, aspirations, and milestone achievements of Yield Supreme Gain.

## Notice

This profile shall not be construed as a binding commitment, offer, or agreement, but rather as an informative document reflecting Yield Supreme Gain's strategic vision. The actual realization of future plans and milestones may be contingent upon various factors and shall remain subject to alteration or amendment as deemed necessary by Yield Supreme Gain's management and in accordance with applicable laws and regulations.

**Robo-Advisors and AI:** We will make use of artificial intelligence and machine learning for robo-advisory services to provide more personalized and automated trading to reduce human errors.

2025

**RegTech:** We will venture into regulatory technology solutions to ensure compliance with evolving financial regulations, which can be complex and subject to change.

2033

2024

**Expansion of Asset Classes:** We will expand beyond traditional crypto assets like bitcoin and cardano to offer trading and investment opportunities in alternative assets like stocks, real estate, or commodities.

2030

**Partnerships and M&A:** We will be Collaborating with traditional financial institutions or other fintech firms and engaging in mergers and acquisitions to broaden their service offerings and customer base.

# Investment Plans

Our core mission is to provide a diversified array of investment plans tailored to meet the specific needs and objectives of our esteemed clientele.

## Short Term Investments

The ensuing investments possess a duration of twelve calendar months, during which investors retain the privilege to effectuate withdrawals of their accrued yields at their sole discretion. The returns emanate from a curated portfolio. Investors possess the capacity to surveil their investments through our designated dashboard and subsequently effectuate withdrawals from their credited accounts.

	Min Amount	Returns Daily
<b>Silver - Salary Plan</b>	\$2,000	20%
<b>Gold Stock - Retirement Account Plan</b>	\$10,000	20%
<b>Platinum - Trustee Bonds Plan</b>	\$40,000	34%
<b>Regular Investor Plan</b>	\$500	20%
